

PVD - BRONZE

PVD FINISHES

ULTIMATE
PRO BOND

FRANZ VIEGENER

PVD chamber

Ultimate Pro Bond offer each Franz Viegener collection exceptional robustness/strength and resistance to wear and corrosion, while maintaining their shine and appearance in every color.

These finishes are the result of a physical vapor deposition (PVD) process. A pollution-free and environmentally friendly process/procedure.

This process, that inputs metallic steam into a vacuum in airtight machines, coats each corner of the pieces, achieving unique colors that last for generations.

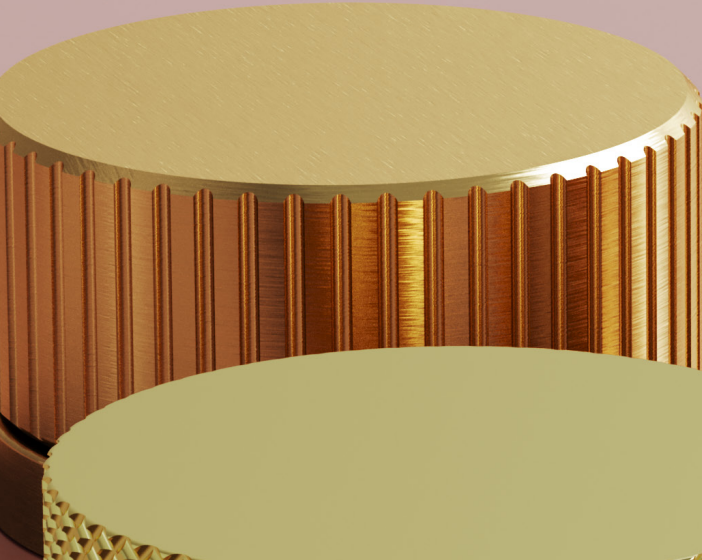

Gilded

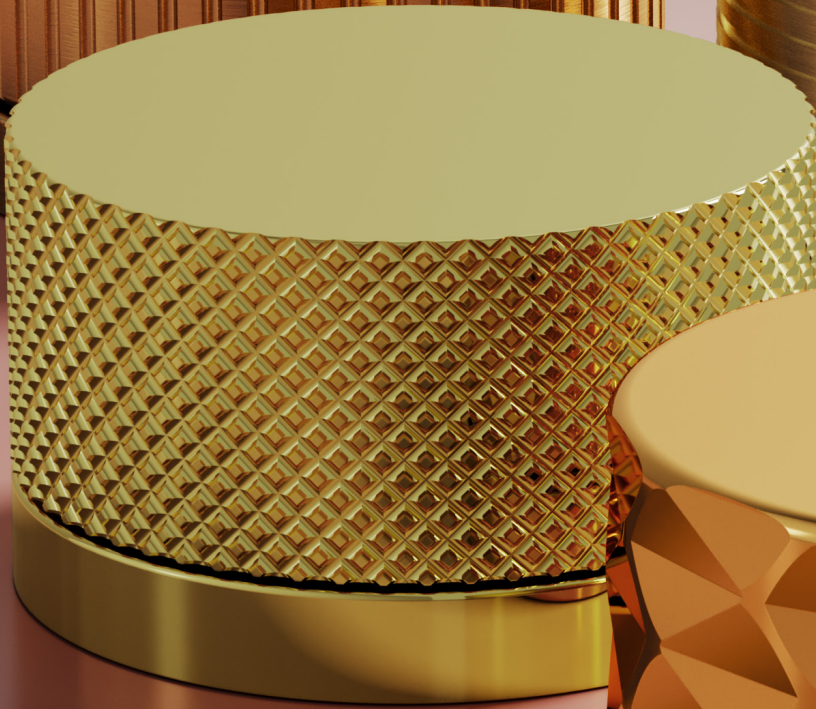

Elevate your space with the opulent touch of gilded finishes, where opulence meets luminosity, casting a radiant glow on elegance.

Why choose Franz Viegener PVD finishes?

Franz Viegener's PVD (Physical Vapor Deposition) finishes represent the pinnacle of resistance and durability in faucet and fixture finishes. Crafted with precision and designed to last, our PVD finishes not only enhance the aesthetic appeal of your spaces but also ensure long-lasting performance. Here's why Franz Viegener PVD finishes are the ultimate choice for those who value quality and excellence.

UNMATCHED DURABILITY

PVD finishes are significantly harder and more resistant to wear than traditional finishes, ensuring that your fixtures retain their pristine appearance for years.

SUPERIOR RESISTANCE

Our PVD finishes offer exceptional resistance to scratches, corrosion, and tarnishing, even in high-traffic areas and harsh environments.

REFINED ELEGANCE

Available in a wide range of rich, vibrant colors, our PVD finishes add a sophisticated, premium look to any space, elevating the overall design.

ECO-FRIENDLY PROCESS

The PVD process is environmentally friendly, producing minimal waste and using less energy compared to other coating methods, aligning with sustainable practices.

CONSISTENT QUALITY

Each PVD finish is applied with meticulous precision, ensuring uniformity and consistency across all pieces, providing a flawless, high-quality finish.

Franz Viegener's commitment to excellence is embodied in every PVD finish we offer. When you choose our PVD finishes, you are choosing unparalleled quality, lasting beauty, and a touch of luxury that endures.
