The K5 kitchen collection redefines the role of a faucet in kitchen design, offering versatility with a choice of three heights, each crafted to suit a variety of spaces and needs. With its tallest model standing at a stunning 80 centimeters, the K5 faucet makes a bold architectural statement, establishing itself as a

focal point in any kitchen. This triumph of scale is more than a visual centerpiece; it enhances functionality, especially for larger sinks, with an expanded reach and optimized water flow that effortlessly accommodates the demands of daily tasks.

Unique Details

Engineered for performance and elegance, the K5 collection maintains Franz Viegenger's high standards in both form and function, seamlessly integrating into a range of kitchen aesthetics.

The availability of three distinct heights allows for flexible design choices,

ensuring that the faucet complements both compact and expansive kitchens.
